Dear Mr. Hickey.

Just a line to thank you for your kindness in entertaining me to lunch: for the loan of "The Black North": and for passing the proof for S.T. Martin's Review article - (I hope it will appear in February 1<sup>st</sup>)

I am ordering a copy of *Le Livre de Blacum*: - with his tribute to my father.

After seeing you I attended a meeting. I hope our results will be to call further attention through Britain to the "interment" policy...

I enclose these cuttings... Sir Wilson Hangerford sets out in print the policy 2 centuries... Nothing however small has ever been passed over, and am expressing my researches: I have experienced it myself! but I've not seen the actual method broadcast before.

Meanwhile best of good wishes to you all, I gratefully thank you very sincerely.

W. S. Arundel.

P.S. ... About your proposed Chairman, I think you should distinguish between 2 eminent people ... I suppose of one of business capacity, enthusiasm and drive... who will get some thing done... The President must be some one well known: the chairman of committee some one who can get a move on.
